

DATA SCIENCE RESOURCES

Advanced Level — Big & Specialized Datasets

Useful for deep learning, NLP, CV, big data research.

- **CIFAR-10 (image classification)** – <https://www.cs.toronto.edu/~kriz/cifar.html>
- **Fashion-MNIST (vision challenge)** – <https://github.com/zalandoresearch/fashion-mnist>
- **Hugging Face Datasets (NLP + multimodal)** – <https://huggingface.co/docs/datasets/>
- **The Pile (LLM training corpus)** – <https://pile.eleuther.ai/>
- **COCO (object detection/segmentation)** – <https://cocodataset.org/>
- **Google Research Public Datasets (167+ across multiple disciplines):** <https://research.google/resources/datasets/>

These are used for deep learning, large-scale model training, and advanced research tasks.
